OBJECTIVE

Motivated Computer Technology diploma holder seeking a summer internship opportunity to apply my programming and technical skills in a real-world environment. Eager to learn, contribute, and grow as I transition into my B.E. program.

EDUCATION

Diploma in Computer Technology

Dharampeth Polytechnic
Board: MSBTE

2023 – 2026

Completed

Currently enrolled in B.E. Computer Engineering
via Lateral Entry (Direct Second Year) — 2026

TECHNICAL SKILLS

Programming:	C, Python (Basics)
Web Basics:	HTML, CSS
Database:	MySQL (Basic Queries) , Firebase
Tools/OS:	MS Office, VS Code, Windows, Linux (Basic)
Concepts:	OOP, Data Structures (Basic), Networking Basics, DBMS

PROJECTS

1. SmartConnect — Android School Management App

Tech: Java, Firebase Realtime Database, Firebase Auth, FCM

- Full-featured Android app with 5 role-based dashboards (Admin, Principal, Teacher, Student, Parent) for complete school management.
- Implemented real-time attendance tracking, fee management, live chat, and push notifications using Firebase Cloud Messaging.
- Secured onboarding with custom SMTP-driven OTP verification and Role-Based Access Control (RBAC).

- Download link : <https://github.com/adityabokde2007/SmartConnect/releases/tag/v1.0>

2. PyAutomate — Windows Desktop Automation Suite Tech: Python, CustomTkinter, PyAutoGUI, SpeechRecognition, Watchdog

- Built a dark-themed GUI desktop app featuring 3 automation modules: Smart File Organizer, Automated Screen Capture, and Nova Voice Assistant.
- Nova Voice Assistant uses offline SAPI5 speech engine with fuzzy command recognition for hands-free Windows control.
- File Organizer auto-categorizes downloads in real-time using the Watchdog library.
- Repository link : <https://github.com/adityabokde2007/Desktop-automator>

3. SkillForge — AI-Powered Skill Gap Analyzer Tech: Next.js, FastAPI (Python), Groq LLM (Llama 3.3), Firebase, YouTube Data API

- Full-stack web app that analyzes a user's current skills vs dream job requirements using Groq AI and generates a personalized learning roadmap.
- Integrated YouTube Data API to auto-fetch relevant tutorials for every skill gap identified.
- Deployed frontend on Netlify and backend on Render with Firebase Auth (Google/GitHub OAuth).
- Link : <https://skill-gap-analyze.netlify.app/>

4. ResumeAI — AI-Powered ATS Resume Analyzer Tech: PHP, MySQL, Groq API (Llama 3.1), HTML/CSS/JS

- Web app that parses uploaded PDF resumes and provides instant ATS score (0–100), skill matching, and improvement feedback using Groq LLM.
- Implemented privacy-first architecture — uploaded PDFs are permanently deleted immediately after text extraction.
- Secured with bcrypt password hashing, CSRF tokens, and SQL injection prevention via prepared statements.
- Repository link : <https://github.com/adityabokde2007/ResumeAI>

5. NGO App — Android NGO Management Platform Tech: Java, Firebase Auth, Firebase Realtime Database, Material Design

- Android app connecting donors, volunteers, and admins on a single platform with role-based access.
- Features include donation system, volunteer registration, event management, gallery, and admin dashboard.
- Implemented dual authentication — Email/Password and Phone OTP — using Firebase Auth.
- Repository link : <https://github.com/adityabokde2007/NGO-App>

CERTIFICATIONS / COURSES

- Python Bootcamp : Learn python from scratch – Code With Harry – 2026.
Certificate link : <https://drive.google.com/file/d/1LOCYiA5QOwT1Oin8SZn5tnY3zqEvQHO0/view>
- Android Development Industrial Training – UEF EdTech Pvt.Ltd. – 2025.
Certificate link : https://drive.google.com/file/d/17wzzeOlt9_eSt481WJRSX9VSdd-D3tE9/view

DECLARATION

I hereby declare that all the information provided above is true and correct to the best of my knowledge.
